

Join us at **RISE**, an internship program providing bioenergy research opportunities for undergraduates from groups currently underrepresented in STEM!

Eligibility: U.S. citizen or permanent resident enrolled in a degree-granting college/university with at least one semester of course work remaining before obtaining bachelor's degree.

RISE

Research Internship in Sustainable Bioenergy

Details, info session dates and application: cabbi.bio/RISE **Apply by:** Feb. 24, 2022

10 Weeks | \$5,000 Stipend | Housing & Travel Provided | Scientific Mentorship | Career Development

About RISE: This is a 10-week summer research opportunity targeting *underrepresented students* interested in bioenergy research. Students seeking experience in plant biology, agronomy, synthetic biology, environmental sciences, chemical engineering, and civil & environmental engineering are welcome to apply!

The Plan: Students will be paired with a CABBI mentor, conduct research, attend career development seminars, learn about the graduate school application process, and practice STEM communication by presenting research at a summer symposium.

Program Dates:
May 31-Aug. 5, 2022
