

Join us at **RISE**, an internship program providing bioenergy research opportunities for undergraduates from groups currently underrepresented in STEM!

**Eligibility:** U.S. citizen or permanent resident enrolled in a degree-granting college/university with at least one semester of course work remaining before obtaining bachelor's degree.

RISE

Research Internship in Sustainable Bioenergy

**Details, info session dates and application:** [cabbi.bio/RISE](http://cabbi.bio/RISE) **Apply by:** Feb. 24, 2023

10 Weeks

\$5,000 Stipend

Housing & Travel Provided

Scientific Mentorship

Career Development

**About RISE:** This is a 10-week summer research opportunity targeting *underrepresented students* interested in bioenergy research. Students seeking experience in plant biology, agronomy, synthetic biology, environmental sciences, chemical engineering, and civil & environmental engineering are welcome to apply!

**The Plan:** Students will be paired with a CABBI mentor, conduct research, attend career development seminars, learn about the graduate school application process, and practice STEM communication by presenting research at a summer symposium.

**Program Dates:**  
May 30-Aug. 4, 2023

**Check out videos featuring students in the 2021 and '22 programs:** [cabbi.bio/RISE](http://cabbi.bio/RISE)  
**Need assistance?** Contact Mary Albrecht, [maryalbr@illinois.edu](mailto:maryalbr@illinois.edu)

**About CABBI:** One of four U.S. Department of Energy-funded Bioenergy Research Centers, CABBI's mission is to develop an economically viable and ecologically sustainable domestic biofuel and bioproducts industry from dedicated bioenergy crops.
